

DIGITAL FORENSIC EXAMINER

If becoming a member of highly dedicated and motivated team that assists clients in investigating and solving complex cases appeals to you.... come join the N1D team!

THE POSITION

N1 Discovery, LLC. (N1D) is seeking someone who is highly driven, team-oriented, and self-motivated to join our digital forensic team. You will be a key member of the N1D team, actively working a broad range of digital forensic cases, including cyber breaches, theft of intellectual property, internal investigations, and a variety of civil and criminal matters. This position will require you to approach each of our unique cases with a fresh perspective and heightened reasoning skills.

OUR COMPANY

N1D is a leader in the fields of Digital Forensics, eDiscovery and Cyber Security. N1D offers a comprehensive suite of forensic investigative services to help our clients solve complex issues. We employ experienced professionals and, utilizing proven methodologies, we provide our clients with comprehensive solutions. Our teams work collaboratively, leveraging the knowledge and experience of our experts to resolve problems and get critical information to our clients. We also prioritize service to our community, performing pro-bono last-message recovery services for families who lost a child (see our website for more information about N1D's community involvement).

N1D is an equal opportunity employer. When you join the N1D team, you'll earn a competitive salary and a suite of benefits, including 401k with company match, generous paid time off, full medical/dental/vision starting on day one, and health savings account. N1D values and encourages continuous learning and reimburses relevant training and certification costs. We also support our team members' personal volunteerism and strive to provide opportunities to help each other and our communities.

OUR CULTURE

The N1D team is comprised of passionate, inquisitive, and interesting individuals. N1D is not hyper focused on performance metrics such as utilization; rather, we focus on delivering high-quality investigative work and exceeding our clients' expectations. Our leadership understands the consultative nature and complexity of the work we perform (having done the work themselves for many years), and they work diligently to change the paradigm, focusing on empowering our employees and maintaining a culture of inclusivity, growth, and fun. A dedicated group organizes frequent events, both virtual and in-person, to take time out of the workday to hang out as friends.

THE DETAILS

- Manage your forensic projects and tasks -- no two days are alike
- Assist N1D's global clients to perform multifaceted investigations
- Collaborate with clients' legal and IT contacts to develop investigative plans and resolve critical questions
- Utilize state-of-the-art forensic hardware and software tools to accomplish objectives
- Assist our cyber incident response team to analyze evidence during a data breach and determine the who/what/where/when/how of the incident
- Collaborate on workflows and improvements to existing practices
- Maintain meticulous documentation and notes in preparation for forensic reports, affidavits and/or depositions
- Attend training to enhance competencies and gain knowledge of new technologies
- Assist with other digital forensic tasks or other duties as required

THE QUALIFICATIONS

- Bachelor's degree in digital forensics, computer science, or related field of study from an accredited university
- One (1) or more years of experience working in digital forensics preferred
- Strong verbal and written communication skills necessary to document and explain difficult technical scenarios
- Experience with mobile and computer examinations of common ecosystems (i.e. Windows, Linux, iOS, and/or Android)
- Experience with digital forensic software and tools, such as EnCase, Cellebrite, Magnet AXIOM, FTK, etc.
- Experience with forensically imaging digital media
- US citizenship

WHAT ELSE?

- Trustworthiness and the ability to maintain strict confidentiality
- Strong attention to detail and accuracy
- Excellent critical thinking skills
- Proficiency interpreting information from multiple evidentiary sources
- Ability to utilize business sense and creativity to develop new ideas and solutions
- Organizational skills, including the ability to manage multiple projects and prioritize workload to meet deadlines
- Strong desire to enhance skills while remaining focused on supporting the company's mission
- Strong passion for learning, growth, and overcoming challenges
- Ability to work remotely from home office and/or in company office as needed
- Ability to perform duties with minimal supervision
- Ability to work in a team environment and also independently
- Occasional travel and work on nights/weekends as needed to meet client goals. N1D requires that new employees be fully vaccinated for company travel.

DIGITAL FORENSIC EXAMINER (cont.)

WHAT WILL MAKE YOU STAND OUT?

- Industry certification(s) such as EnCE, CCME, CFCE, CCE, or similar
- Deposition and testimony experience
- Impressive CV (articles, interviews, etc.)
- Fluent in other languages
- Commitment to community volunteerism

We look forward to hearing from you. Please send your resume to jobs@n1discovery.com to start the conversation.
